- 100% employee-owned.
- **Award-winning reputation for excellence and safety.**

DEVELOPING PEOPLE | BUILDING CAREERS

- Rich history investing in work placements, trade apprenticeships and construction management cadetships.
- Unwavering commitment to excellence and the advancement of people.
- 25% of all North employees participate in a workplace learning program.
- #17 Best Workplaces in Australia 2020 (Great Place To Work).
- Work integrated Learning (WIL) – Hall of Fame (2020 University of Newcastle Employability Excellence Awards).
- Australian Medium Employer of the Year (2018 Australian Training Awards).
- Currently have 12 building cadets working full-time whilst completing their Construction Management degree at the University of Newcastle; 9 construction apprentices working full-time whilst completing Certificate III in Carpentry at TAFE; and 3 Project Management Trainees working full-time whilst completing Certificate IV in Project Management at TAFE NSW.

BUILD YOUR FUTURE TODAY BY CONSIDERING A CAREER IN CONSTRUCTION!

If you are interested in construction, there are many career options available to you including site management, project management and estimating. Contact us today to learn more about the opportunities open to you in this industry and how North can help you achieve your life and career goals!

CARPENTRY APPRENTICESHIPS

Each year, North will recruit carpentry apprentices with the view of developing them into our future foreman and site managers.

Applications generally open in September each year and close early October.

Please email us at careers@north.com.au to find out further details and the application process.

WORK PLACEMENTS

By providing valuable skills and hands on experience for the students of the Central Coast, Newcastle and Hunter regions, North is pleased to be able to promote the construction industry and the varied career options available to the participants of a work placement.

If you are interested in completing a work placement with North please contact your school career advisors for further information.

KEY SKILLS REQUIRED

- Well developed numeracy and literacy skills.
- Highly organised.
- Ability to work under pressure.
- Ability to work as an effective member of a team.
- Strong work ethic.
- Problem solving and decision making skills.
- Ability to see your cadet/apprentice program through to completion.

Industry white card required.

"As an Apprentice at North, I have been lucky enough to have dedicated Foreman and an Apprentice Manager, who have helped guide me not only in the building industry but through my apprenticeship. North has allowed me to build strong relationships and provided opportunities that perhaps don't exist elsewhere. This really shows how much North care about their employees"

- Aaron, Leading Hand

"As a North apprentice I am supported by Site Supervisors, an Apprentice Manager and colleagues that are passionate about their work. As an apprentice I am continuously learning everyday from the impressive amounts of industry knowledge that North has to offer. I am grateful to be able to have the supportive environment that North has provided me to guide me through the start of my career."

- Hannah, Carpentry Apprentice

"I started with North as an apprentice over six years ago and it was a great experience. The culture here is so supportive and ideal for young people just starting out. I've taken every opportunity given to me by the company and learned so much. I continue to use those skills everyday in my current full time position."

- Mitch, Site Supervisor
